
390 School Update In Bihar | BESTI

after receiving a feasibility study. In addition, you can order architectural supervision and consulting support from us. Our experts will prepare for you a feasibility study, development of the architectural concept of the building, project documentation and will accompany the project at all stages of its implementation. When designing buildings, our specialists take into account the specifics and features of various premises. We are ready to advise you on the future of the project and offer the best options for its implementation at an affordable price. In our activities, we use the latest software, specialized computer programs that allow us to meet all customer requirements. Integrated solutions allow us to carry out high-class projects and carry out the entire range of work from project development to its full completion. When designing, we take into account all the nuances, for example, depending on the category of premises and their purpose (public buildings, industrial buildings, residential buildings, office buildings, shopping centers, airports), we choose the appropriate building materials, architectural solutions and materials, etc. d. Any design of buildings and structures begins with the preparation of a feasibility study (FS), which sets out all the main technical and economic indicators of the future facility. We can prepare for you the terms of reference for the design, we will carry out the development of a feasibility study in accordance with all the requirements and wishes of the customer.
