
Battlefield 3 Crack Kickass Proxyl

September 10, 2015 - The good news is that Ea's (terrible) Origin service is at least better than Steam, in that it doesn't block proxies (Steam does). Not only that, it is. Origin is just trying to avoid all the problems with the online services it already knows about and not trying to be smart. It knows you can use a VPN proxy to get around VPN blocking issues, but it doesn't even try to find out. It does not make a VPN or proxy to give the illusion of being secure when VPN is blocked. In fact, it doesn't even try to create anything that looks "Safe". No, it just leaves you in the game. Overall, it just doesn't work.
