Mozilla Cleaner [32|64bit]

This is powerful, smart, and easy-to-use application designed to help you delete unwanted junk files quickly, including temporary data, history, cookies, and passwords for the Internet Explorer, Chrome, Firefox web browsers, and Windows system-related files and folders. Under the hood The product, which runs under a 64-bit version of Windows, includes a system tray icon that opens a 32-bit helper application. This helper application lets you control all Internet browsers by using a set of filtering options. In addition, it supports deletion of history, cookies, temporary Internet files, empty folders, form data, Recycle Bin, recent, and WMP files, and text files with labels. Actions To activate the interface, click the Start menu and choose Run. In the Open dialog box, enter the program's file name and click OK. User Account Control (UAC) is offered with this product. In this way, you may authorize this application to work with the system. In addition, you may set options for startup, set Mozilla Cleaner to be minimized at Windows start-up, and put the program into a specific folder. The window, which allows you to monitor the cleaning process, contains a log that shows the following information: Clearing tasks The number of files that were cleaned A list of processing errors Unnecessary tasks Content Of Mozilla Cleaner: You can use the following methods to delete data and files for Internet Explorer, Chrome, and Firefox browsers and Windows system-related files. Key features Basic menu Here, you may specify what type of operation you want to run and set the setting for the scan of one or all folders. Delete settings This item let you set the amount of cleaning you want to do for each browser. Open Internet Explorer You may start a scan and, after it is finished, click the OK button to open the affected Internet Explorer browser. If the browser is not accessible anymore, you may repeat the operation. Open Google Chrome You may initiate a scan and, after the operation is finished, click the OK button to open the affected Google Chrome browser. If the browser is not available, you may repeat the operation. Open Mozilla Firefox You may initiate a scan and, after the operation is finished, click the OK button to open the affected Mozilla Firefox browser. If the browser is not available, you may repeat the operation.

What's New In Mozilla Cleaner?

Mozilla Firefox cleans the browser's history, cookies, temporary data, passwords, and form data. This small tool allows you to delete certain items from the Firefox browser without requiring a clean profile. With the help of Mozilla Cleaner you can clean your browser's cookies, history, temporary data, and password related information. You may also reset your Firefox's password and remove personal information associated with your profile. This tool can also be used to delete files from Mozilla Firefox's Recycle Bin, but it is not designed to clean browser or system files. You can utilize Mozilla Cleaner to delete files from your Firefox profile (without a profile) and from Firefox's Recycle Bin. You may find the Firefox Cleaner tool very useful when you decide to have a clean profile for running third-party extensions and add-ons. The available Firefox Cleaner options include;Clear History or Clear Forms You may use this option for clearing your browser history, form data, and cookies. It is also possible to delete the browser's temporary data, such as browsing details, login data, and sessions. If you try to delete temporary data without a clean profile you will get a message about losing 'Not Secure' data and you'll be asked to resubmit the data. Mozilla Cleaner can also be used to change the preference, open a profile, clear cache, and set up a new user profile. Mozilla Cleaner User Guide: If you are using a Mozilla Firefox browser you may use the Firefox Cleaner tool to delete certain items from your browser history, cookies, temporary data, password related information, and form data. Mozilla Cleaner is designed to work with the latest Firefox versions only. You can run this tool and find an option to 'Clean Firefox' or 'Clear Browser Data'. When you have activated the clean option you will be presented with a window showing the various Firefox browser data and options you can remove. To begin clean work you will need to select the data you want to remove. Removing browser history If you choose to clean the browser history you will see options for clearing; cookies, temporary data, history, and form data. When you click on a data type you will be presented with the options available to make that choice. You will be

System Requirements:
