## What's New In?

☑ Features☑ ☑ Feature of labels and stars. ☑ Quickly view each folder of the file with the display mode set by you. ☑ Add a variety of file types as a file name. ☑ Add a variety of labels or stars, then add a star to the file of each label or star you add. ☑ Sort by adding labels, stars or changing the display mode. ☑ Portable use. ☑ Time for battery can be made more. ☑ Continue to look at current storage status of each folder using the auto sync function. Installation: ☑ Make a shortcut in the start menu to install Portable FenrirFS. ☑ Notepad is suggested to be used for the Auto-Sync. Download Portable FenrirFS [V1.1.1.6] -----Why Portable FenrirFS is suitable for you:----- ☑ Portable FenrirFS can be set as a portable application. ☑ It does not rely on your PC to add to the application data. ☑ It can be stored and used on USB memory sticks. ☑ It can be added to folders and can be carried around with you. ☑ It can be backed up on a USB memory stick. ☑ By changing the display, it can be viewed more easily. ☑ Quickly preview files such as images and PDF files in a separate window. ☑ It has an Auto-Sync function. This program can be used to attach the label to your scanned file with a simple procedure. You can use the function of the image management functions you can use with PORT, but the application interface is completely different. You can add labels to the same file and delete them as well. You can not only add labels by importing photos from your camera, but also by creating images on your computer. "Free space manager" is installed, so it is possible to manage the space that is consumed by the folder. You can also export all the folder-label files as a single image or various image files in various file formats. The original "Portable FenrirFS" is a label management program that can be taken with you on USB memory sticks. You can use the new Portable FenrirFS version to manage and sort images. So, please use Portable FenrirFS in a variety of ways. US\$0.99 - Free for 30 days. Languages: English, Japanese, Simplified Chinese, Traditional Chinese, Korean, Indonesian,

---
