
□□□□□□□□□□□□□□ Elden Ring is a game set in a world where the gods of light and darkness, Algier and Samael have battled ceaselessly for 10 millennia. The gods created the world in an act of salvation and justice by crafting the cosmos. In this long and bloody conflict, Algier is all-powerful and Samael is the most powerful god, and these two remain at the center of the world. 10 thousand years have passed since the formation of the world. In that time, many of the people who lived in the world have been dispersed. To these people, the world was ruled from atop the great tower of the monastery in the lands of the sun; the Tower of Brightness was its name. The monks in the Tower of Brightness and the descendants of the god Algier lived in harmony in the sun-light realm until a man with the unique name of Tarnished was born. He developed a dark power and the three thousand years since that fateful day has witnessed the endless struggle of the gods. It is possible that the Tarnished One was born with the power of a god, but it is also conceivable that he was a god who lost his own power when the world was created. The reason why this mysterious boy Tarnished's existence has remained in the world to this day is a mystery, but many are curious about his existence and due to his power, many have come to respect him as a powerful young god. This young god, along with most of his descendants, live in the darkness of the Lands Between. Fate has led the people of the light to a place where they can not live peacefully, but the people of the darkness have no choice but to move to the outside world. Tarnished is travelling with his companions, a young lady named

Tenri, and a man who claims to be a demon named Koumei. When they meet a group of monsters in the regions of the outer darkness
