You are the investigator! TRACK DOWN THE YOTTR, FINGER LABS AND GARY Describe your character and what happens in this story. At this point you could let me continue describing the story but I think that's pretty spoilerish... So instead of doing that, I will just tell you that YOU'RE a security guard, who just happens to have an unsecured disc collection. One day this disc collection gets stolen by a thief and your AI hubby needs to find out who the thief is. You (the

security guard) go around the entire town looking at every face, asking that person a series of questions, get them to tip a finger as proof of identity and then you can tell your husband who stole your disc collection. Why are you a security guard in a fictional town, asking a series of people questions and trying to deduce who the thief is? It's very smart. What is the main objective of this story? Why this story was made Who made this story? Why was this story made? Who needs a home? Do you want to play a game, ask some questions and have a laugh? Does this game fit your style of playing games? Game | Find the matches This is a simple game, let's play a round of find the matches! On the A grid, try to find all the red squares. Rogue Fable is a rogue-like dungeon crawler set in a dark and fantastic fantasy realm. The ultimate goal of every character is to find a treasure called Yendor. A treasure so valuable that when it is found, the kingdom needs never suffer hunger or thirst again. That is, unless it is stolen away by the enemies of the realm. Manage your character as you wish, from providing for your wants (food, armor, potions, etc.), to providing the tools that will assist you in the quest to save Yendor. Battle through the numerous dungeons that litter the land in the search for the legendary treasure. Eventually you will reach Yendor, defeat the evil presence that guards it and bring glory to your kingdom! Upgrade your character and items, as you see fit, in order to meet the challenges and demands of the unique dungeon of the day. But beware, there is no use in being overpowered, as the treasures found within the dungeons are often crafted with a vengeance. Once found you must spend it wisely or the treasure will wither and die. As death comes to all things this could spell disaster for your hard earned treasures. A rogue-like in the truest sense of the word. Every run is unique, each dungeon a challenge with multiple possibilities, and no two runs are ever the same. Be prepared to build and develop your character as you see fit, as your primary goal in a given run is to be able to survive the dungeons long enough to find and earn Yendor. Your character can only carry a limited number of items, which can all be upgraded and altered to suit your needs and preferences. Will you focus on one class or will you take up to three? Will you forge the strongest possible weapon or the finest chainmail? These are all

questions that will be answered as your character grows. And with Yendor not only do you gain new items, you may also have the chance to evolve them into a new level. The potential to evolve items, to improve your performance, and to gain new abilities and new abilities is what makes Rogue Fable truly unique. The amount and type of experience obtained through combat and dungeon exploration is greatly affected by the choice of equipment and classes you play. You can choose to be the strongest warrior on the field, but what will happen if you set off on your journey sans weapon or armor? What will happen if you surround yourself with full plate and pick up a troll's head as a weapon? These are questions that you will need to answer as you c9d1549cdd
