first copy of this game in a bundle, I can not wait until we're ready to get this game! This game was great, the unique storyline, the gigantic world, and the customization made for a great gaming experience. There was a lot of bugs however, and for that I would give it a 2.5/5. This game was great, the unique storyline, the gigantic world, and the customization made for a great gaming experience. There was a lot of bugs however, and for that I would give it a 2.5/5. Yea,I think it was around 10 or 15 dollars for the full version.You're not getting much more than 1 dollar you spent on the full version.You don't get more weapons,you don't get more clothes,you don't get anything.Well,the game has a lot of bugs but the devs are aware of it and they have a plan to fix it. No,you're getting more then 1 dollar.You do have more combat,more clothes,more weapons,more skill trees,more jewelry, and more customization.Those are the only things that are worth that 1 dollar,though they're not the only thing you get for the price. i was gonna review this game, but im just gonna say that the title says it all the game is really easy, you have no chance at winning, just because u have a lot of money. if u dont have enough money, u are screwed, because 1 of the hardest bosses in the game is an enchanter who gives you only 2 spooky arrowheads to kill him i was gonna review this game, but im just gonna say that the title says it all the game is really easy, you have no chance at winning, just because u have a lot of money.
