What's new in Elden Ring:

GRAND TRAINING

The development of combat abilities will expand and evolve as you train. Experience, skill, and wisdom are all recorded in your Training log to reflect your growth.

Collect Orbs

Your special ability and basic equipment will be fully improved by ritually gathering and equipping an impressive selection of Orbs. Your ultimate ability and gear will strengthen accordingly in a dynamic way.

Control

Track and block enemies, hit combinations, and

defeat all those who stand in your way! All motion states, such as using skills, are used in realtime so movement plays an important role. You can accurately control all of your movements and attacks by using the mouse and keyboard. A high level of skill is required. Feeling frustrated? Adjust the level of control to find the right balance between your battle style and Stamina. Fight your way to glory, and forge a legend!

**Bat King
Infinite Stamina and infinite life**

The map has been built entirely from scratch. For our 3D models, we have intensively and patiently researched how to ensure their detailed look. The majority of 2D art (including dungeon) has been completed from scratch as well. Our artists diligently and with passion pour detailed attention into every part of the map. Such attention to the details is essential in order to convey the atmosphere of the game.

Together with our developers, we have begun to summarize the large amounts of information and we are making steady progress.

However, until the final test, please enjoy this demo version. It has limited functions and objects so it cannot fully simulate the actual game. Thanks for your continued support during the development.

We hope you enjoy the latest announcement.

The development team will continue to keep you updated on the general status of the project and other details.

Thank you!
